## RMIG Primrose

The world of flowers is incredibly diverse. The primulaceae family alone counts nearly 3,000 species and has been the inspiration for this stylised decorative pattern you can order for quick delivery in different materials and thicknesses. Like nature's flowers, RMIG Primrose makes our surroundings a little more beautiful.

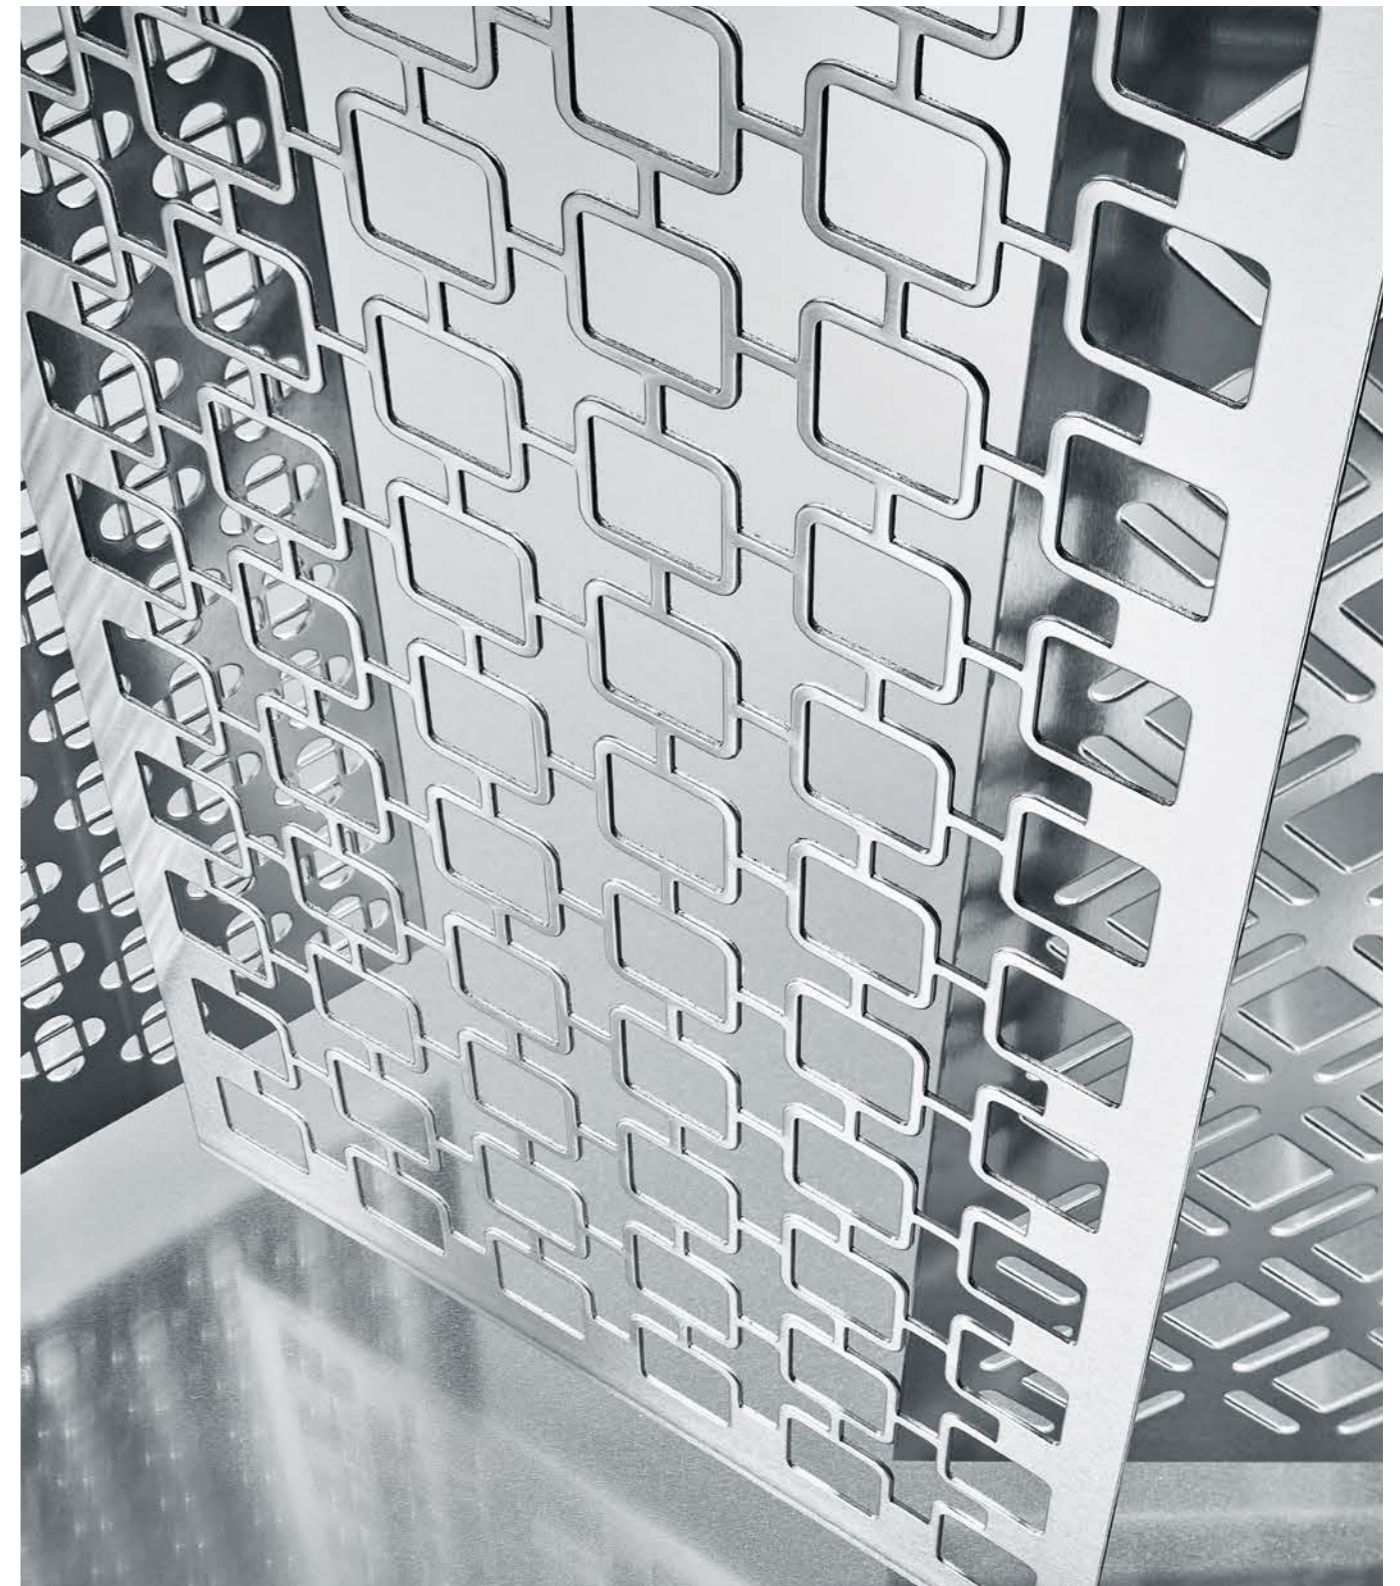

Hole: Triangle = 17.3 x 17.3 x 17.3 mm | Open area: 25.0 %

## RMIG Café

A nicely balanced repetitive pattern, well suited for a wide variety of applications. The perforation resembles small café tables - all lined up for afternoon tea - or a field of flowers! No matter how you interpret the pattern, our fast delivery of sheets will help you to complete your project.

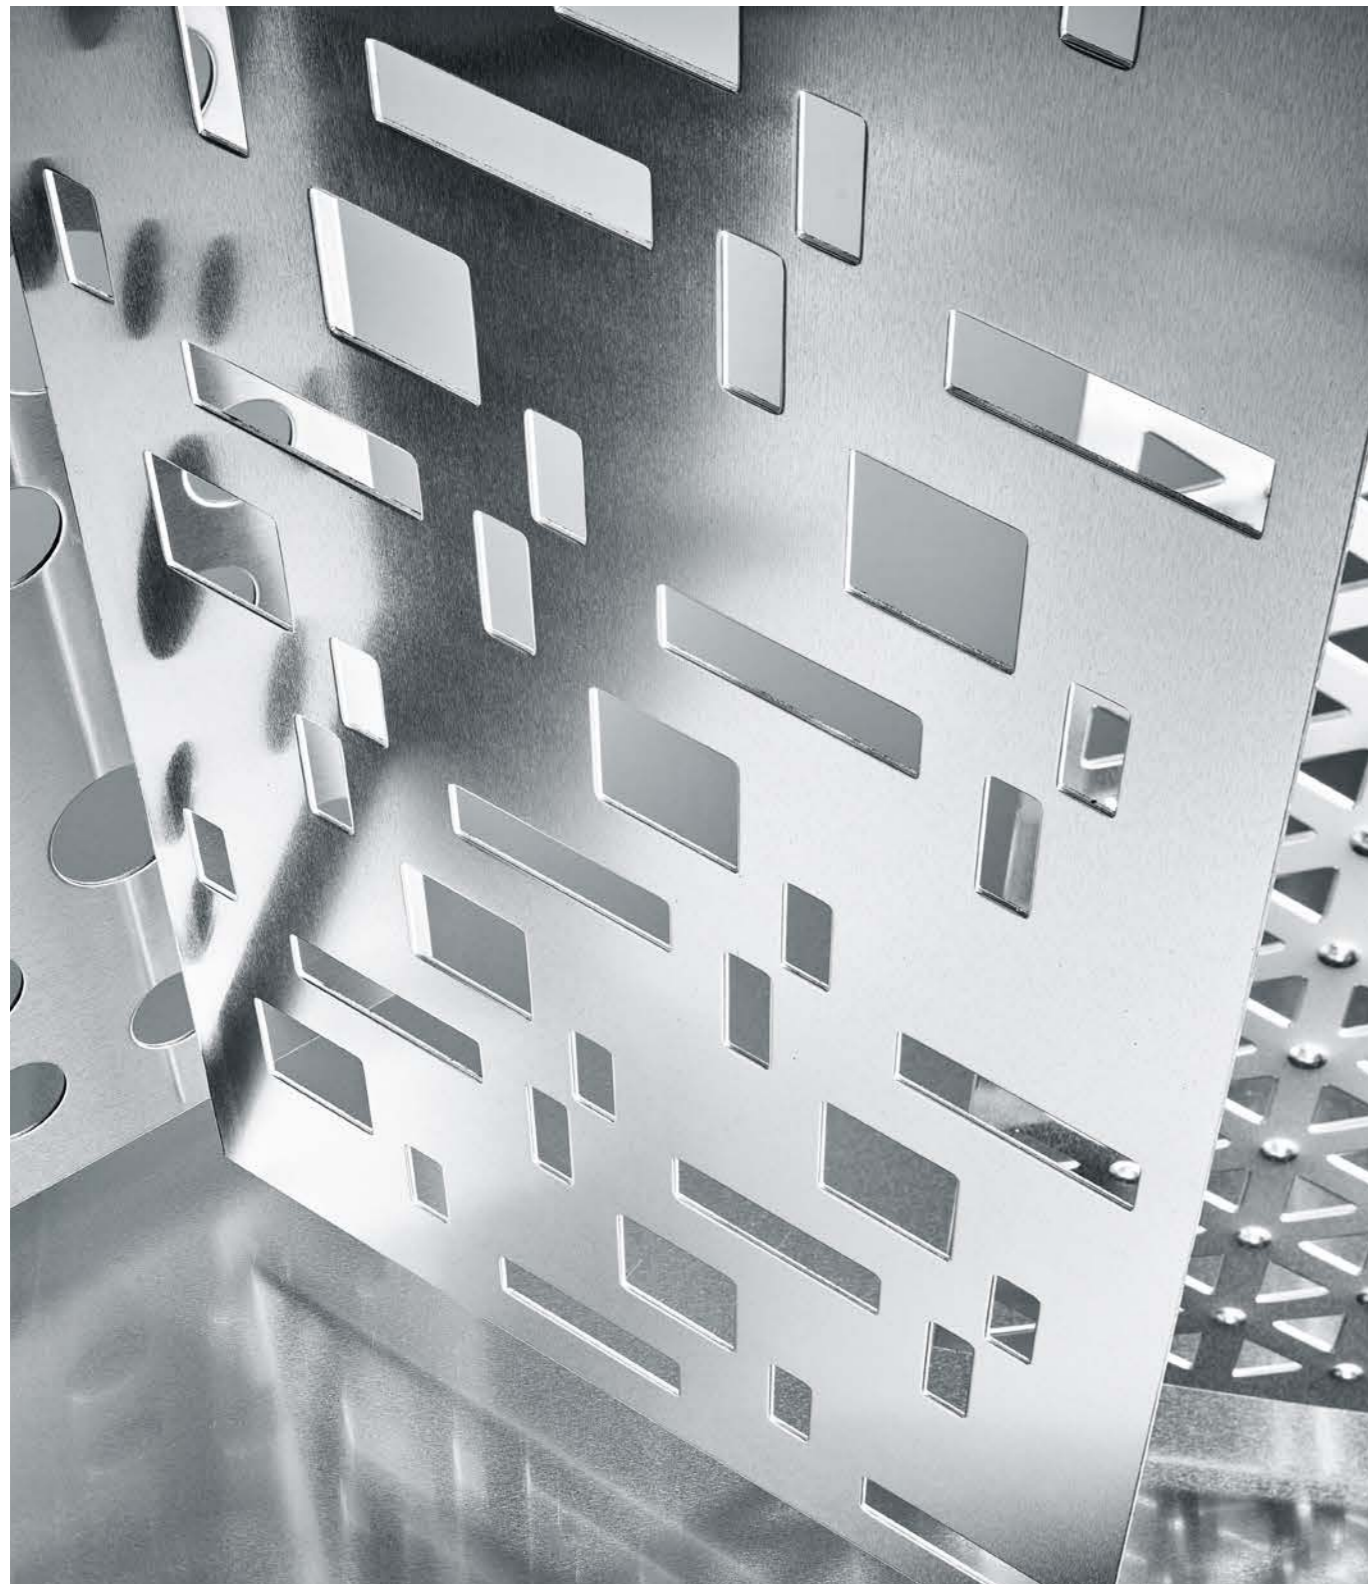

Hole: R = 5x10 mm, C = 10 mm | Open area: 33.0 %

## RMIG Athens

Democracy, philosophy, architecture. The Greeks have given so much to Western civilisation. RMIG Athens takes inspiration from Greek ornamental patterns as they are found in textiles and buildings. A classic pattern, ideal for balustrades, enclosures, claddings and more.

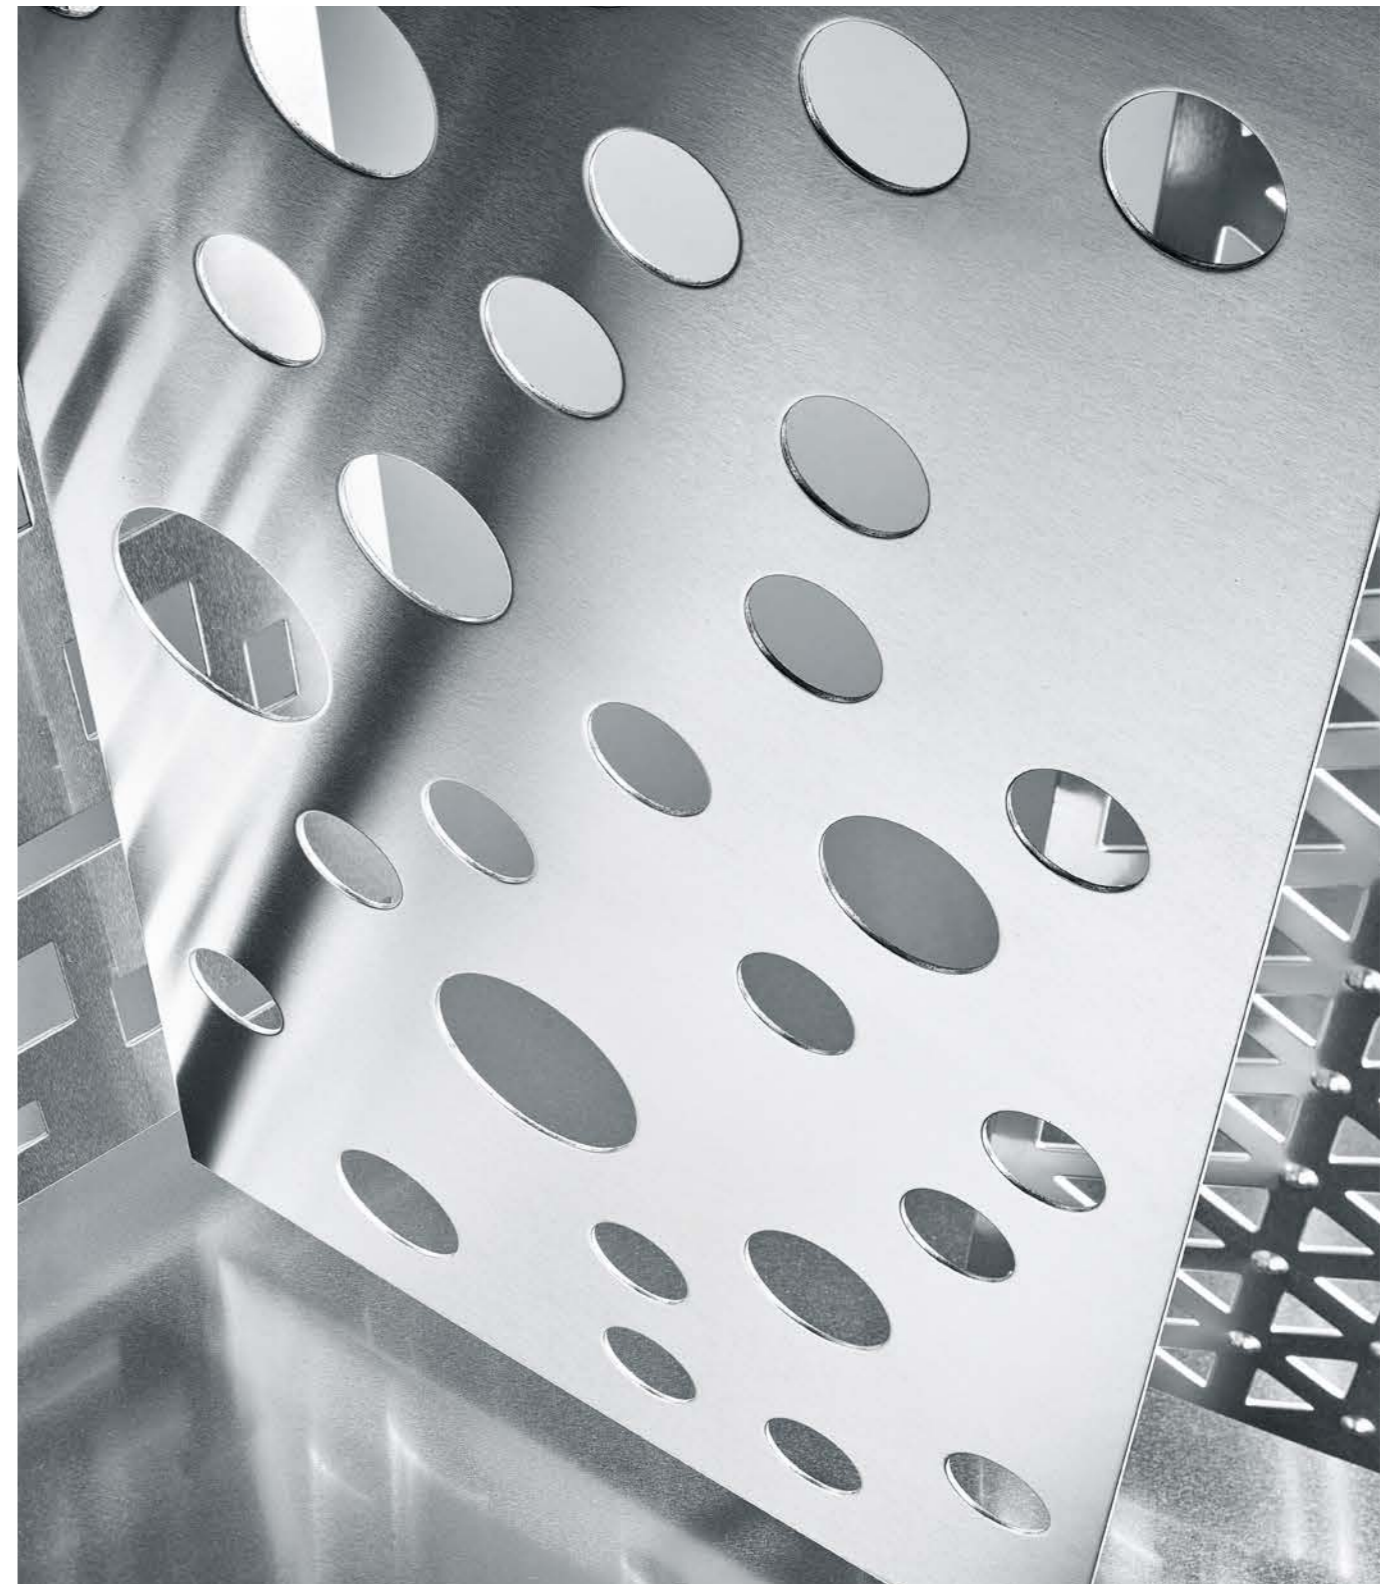

Hole: C = 24 mm | Open area: 77.1 %

## RMIG Infinity

Is it a landscape that stretches into infinity? Is it a modern city with skyscrapers? Or is it an infinite number of geometrical figures arranged to attract attention? No matter how you interpret RMIG Infinity, it is a new variation of metal that turns even a small project into something special.

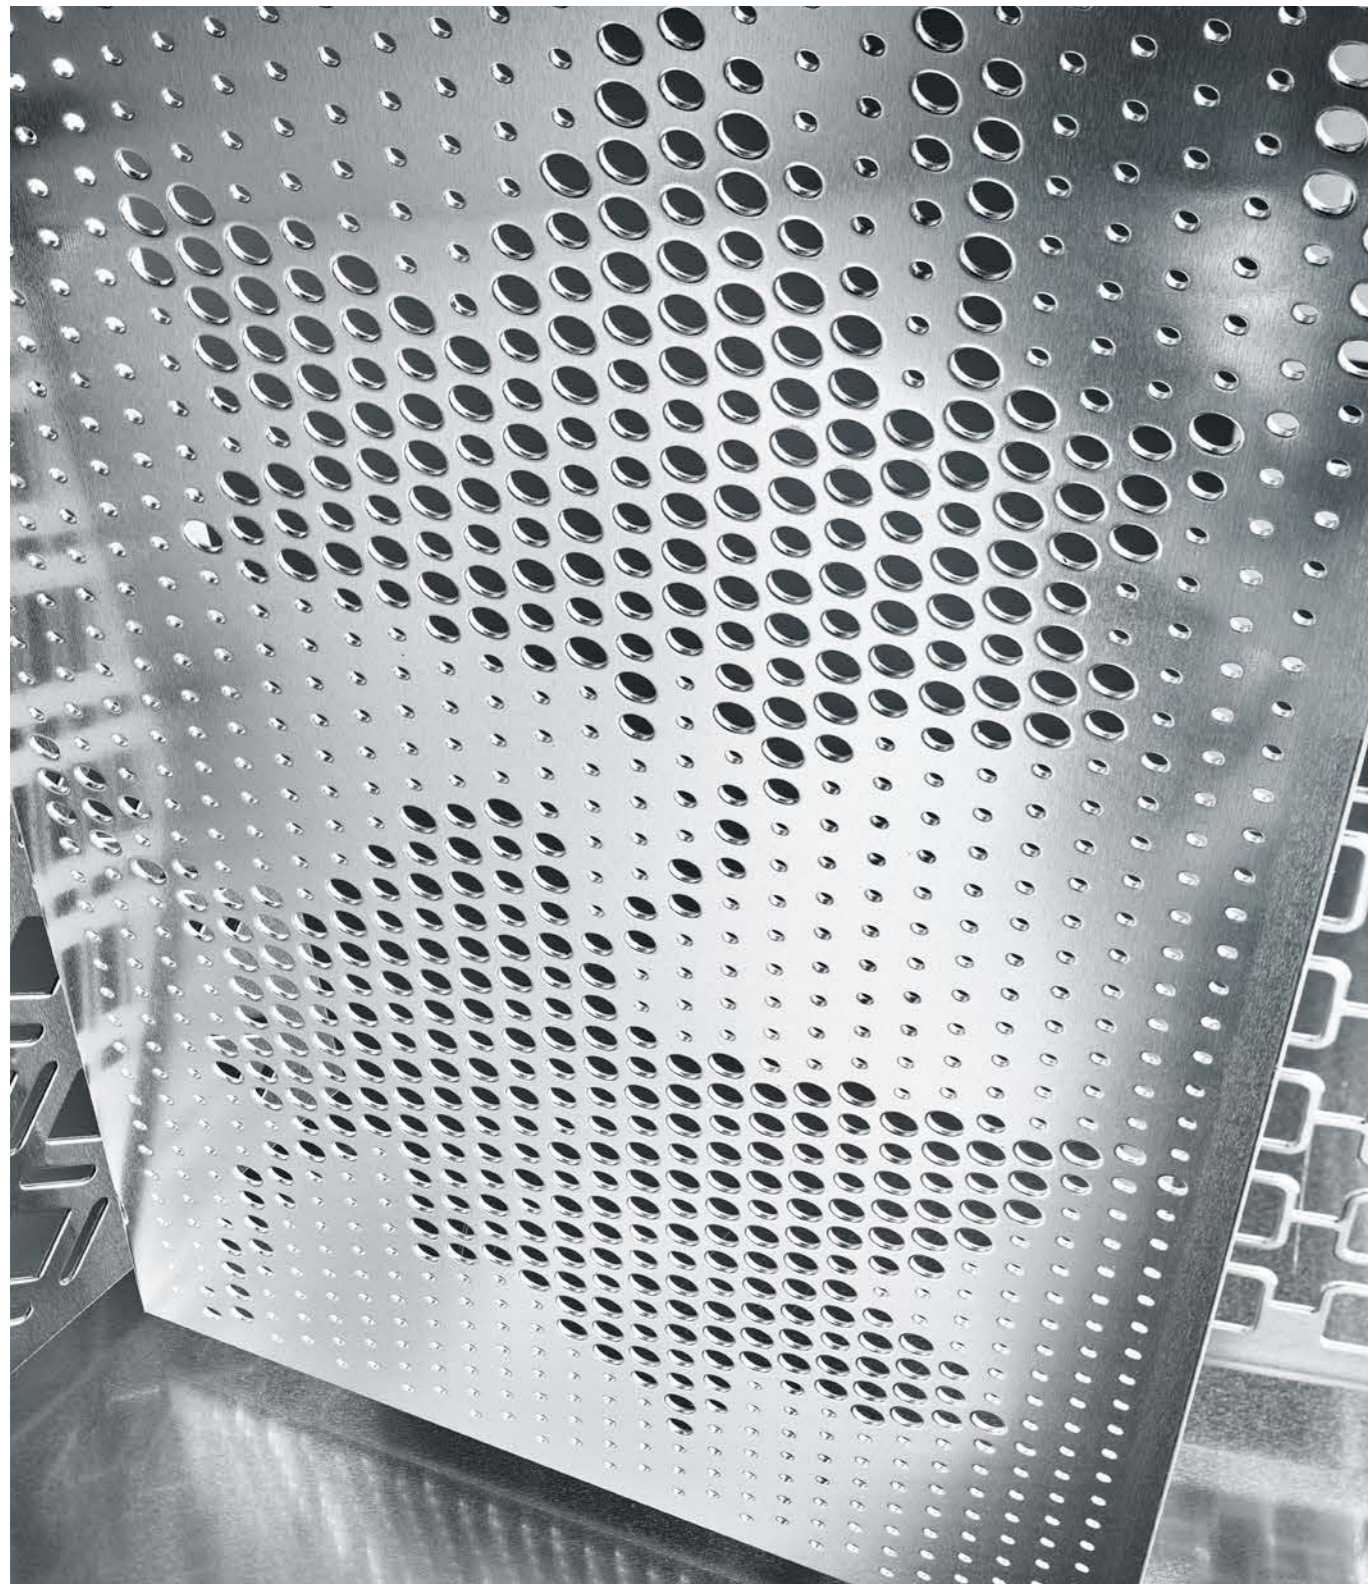

Hole: from 10 to 50 mm | Open area: 25.9 %

## RMIG Aqua

Cheerful, bubbly and way beyond ordinary perforated metal sheets. RMIG Aqua makes a bold statement, revives pop-art from the 1970's, and challenges you to be more daring when choosing high-quality perforated sheets from our RMIG Express product range. Isn't it time to live it up a little?

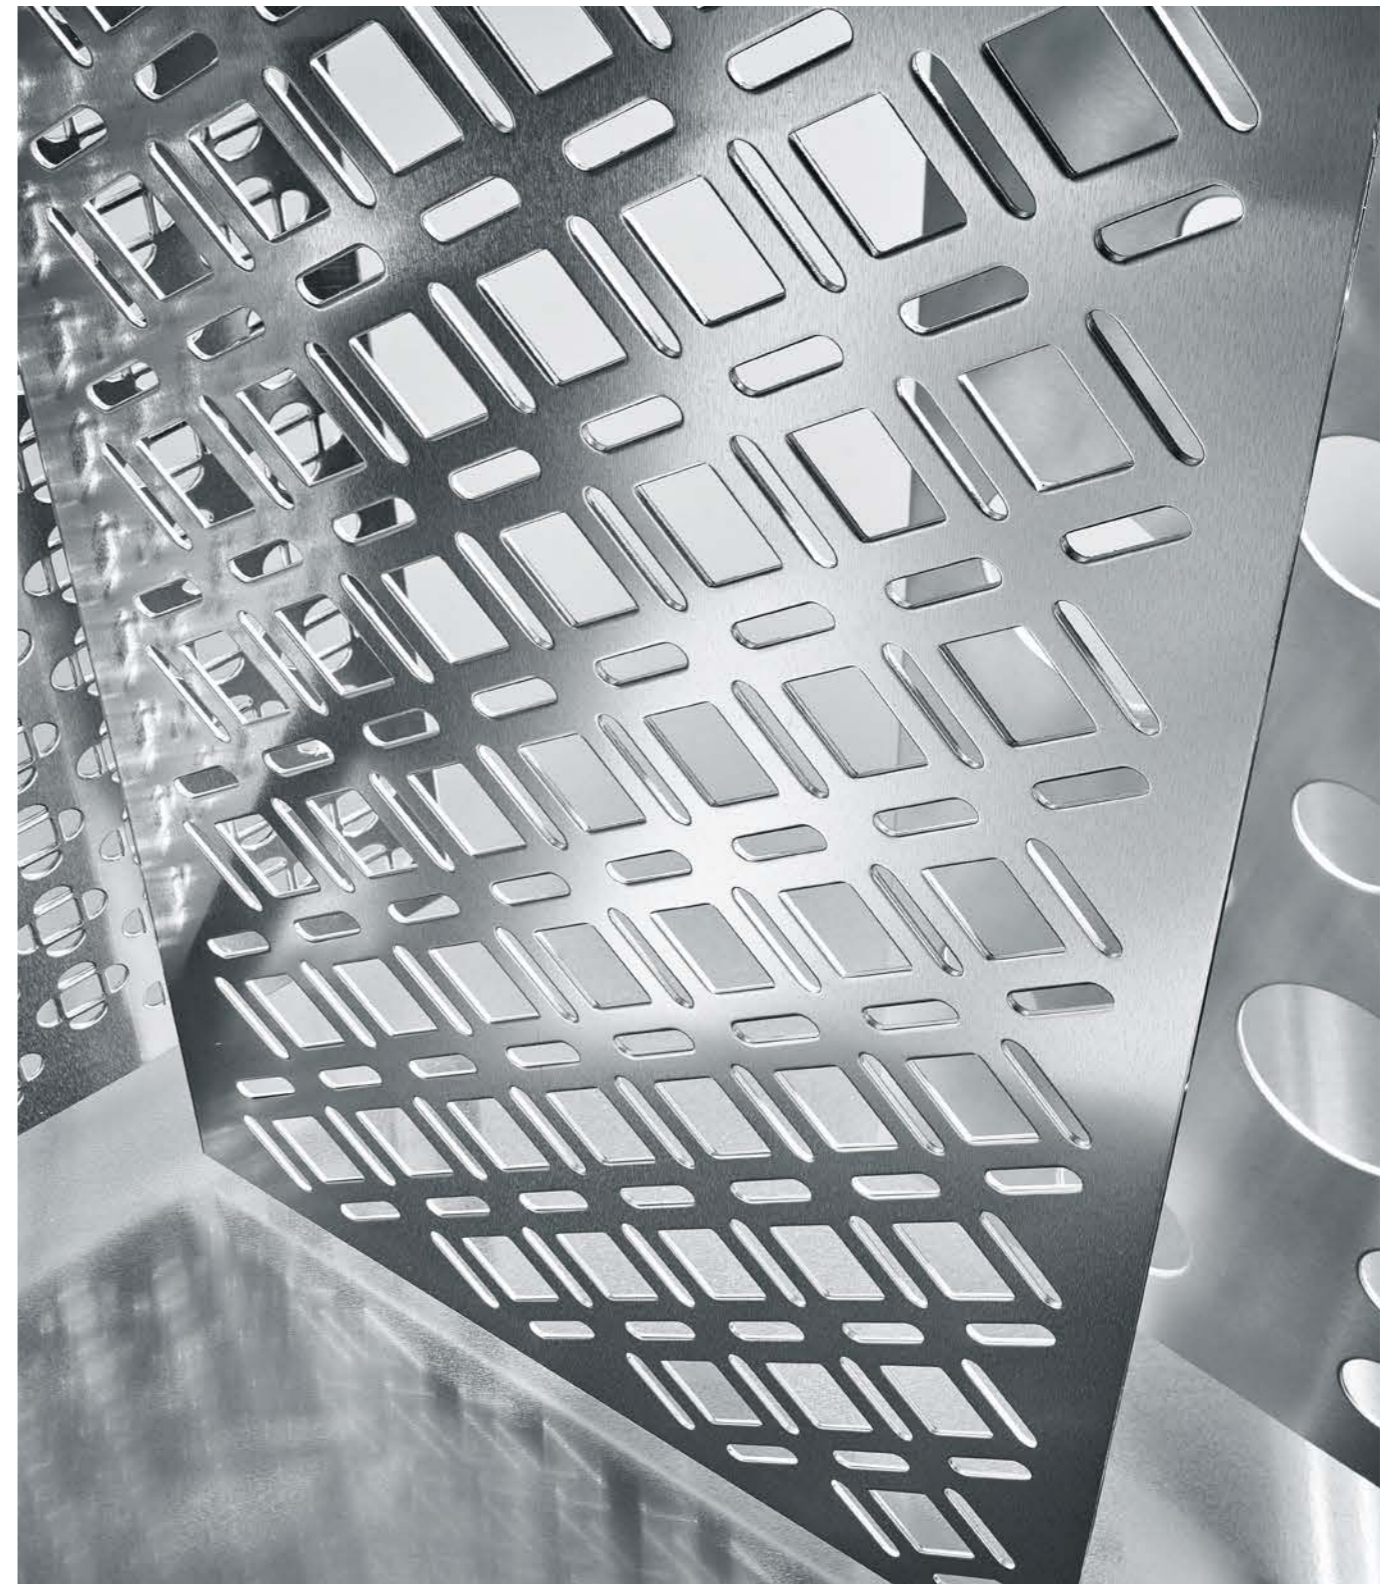

Hole: R = from 25 to 60 mm | Open area: 22.3 %

## RMIG Leaves

RMIG Leaves stands out among our many decorative patterns. The intricate pattern formed by the shape of the perforation holes beautifully depicts leaves and resembles a striking tapestry or curtain. It can be used either in a classic environment or to counterbalance a modern setting.

Hole: R = from 3 to 7 mm | Open area: 19.5 %

## RMIG Retro

A classic and extremely versatile retro pattern that will fit almost any environment perfectly. It is available in a wide variety of thicknesses, materials and dimensions for you to choose from. Any questions about the use of RMIG Retro? Contact our sales staff and let them advise you.

Hole: LR = 5x25 mm, C = 20 mm | Open area: 39.9 %
